Announcing our newest partnership, EarthShare!

The Center and Earthshare have come together to combine our efforts of conservation and education! On April 11th we hosted EarthShare's Green Day Challenge, where we brought together organizations to clean up Petty's Island.

Check Out Our Programs

Summer Camp is coming soon!

Join us for a summer of exploration and learning at the Center for Aquatic Sciences! Our camps offer hands-on science activities and exciting opportunities to engage with marine life. Give your child the chance to discover the wonders of the ocean in a fun and educational environment!

CAUSE Plants Trees

This past week our CAUSE teens made a lasting impact by planting trees at Mt. Sinai Church! With every sapling they planted, they're contributing to a greener, healthier community for everyone. Together, they're creating a future full of lush, thriving trees for generations to come!

The Center for Aquatic Sciences relies on the support of generous donors to continue its educational programs and outreach initiatives. Your donation helps inspire and educate the next generation of environmental stewards while providing hands-on learning experiences with aquatic life. Please consider making a contribution today to support the mission of preserving and protecting our

aquatic ecosystems!
